PocketOffice™
Roving Master

Item Management. Q-Buster™. Remote Cashier Monitoring. Shelf Audit. GroceryDashboard™. Remote Manager Authorization. And more. They all come with PocketOffice™, and now you can access all of these benefits, all of the time, in any store.

PocketOffice from StoreNext now offers Roving Master, a new capability that allows headquarters staff to use PocketOffice anywhere in your chain. With Roving Master, you can instantly check the day's sales, service levels, productivity or promotions, regardless of which store you are in, just by using your standard login and operating procedures.

By introducing Roving Master, StoreNext just made mobile computing a lot more mobile. So you can be a lot more productive, and your store–or stores–a lot more profitable.
